

## ST. MARY ORTHOPEDIC CENTER

**1st**

joint replacement program in the state to earn Joint Commission Gold Seal of Approval™

Treat more than **3,000** orthopedic patients every year

Joint replacement patients usually return home **2 – 3** days after surgery

Joint program rates in top **1%** nationally for patient satisfaction

### The most important number is still one.

St. Mary's experienced orthopedic experts use the latest advances to heal joints, spines, hands, and sports injuries. So it's no wonder we have some very impressive numbers to show. But we never forget that the most important number of all is that one person we're treating right now.

*"I'm a recovery room nurse at St. Mary, where I've worked for more than 30 years. So it was a whole new experience for me to be the patient. Before my knee replacement, it felt like there was a knife in my kneecap – the pain was agonizing. The physical demands of my job were a real struggle. I had my surgery at St. Mary because I've seen the team in action and completely trust them.*

*"The morning after surgery, I actually walked to physical therapy with a walker. St. Mary even arranged great home care afterward. I feel like a totally new person. Now I can keep up with my friends on trips, walk the dog, and be a better nurse, because I have absolutely no pain. I wouldn't have orthopedic surgery anywhere else."*

*Mary Hankinson  
St. Mary Nurse and Patient*

Designated as a

**Blue Distinction®**

Center for Knee and Hip Replacement

An Independent Licensee of the Blue Cross and Blue Shield Association

**True story. True leader.**
